Subject: Prosposal 2-XA for MLPA

Please approve Proposal 2-XA. It will achieve the scientific and conservation goals of the MLPA. It is enforceable and will have broad public support. 2-XA will enhance public safety for the recreational Fishermen who would otherwise be forced to travel long distances through dangerous seas under proposal 4 and 13 in order to enjoy their

Sport.

Proposal 4 will close all recreational bottom fishing at Duxbury Reef , the most important fishing area noth Of point conception.

Proposal 4 and 13 will economicly devastate most of the small costal towns in northern California.

Sincerely Darrel Andrada, 1236 Harvest Road, Pleasanton, Ca
